

General Information

Duration	2 days	Total hours	16
Language	English	Classroom Training	1
Class size	4 to 12 attendees	Sample Documents	3
Course Fee	1045CHF / 675EUR	Discussion Forum	2
		Multiple Choice Exam	1

Target Groups

- ⇒ **CAMO accountable, maintenance and quality managers**
- ⇒ **Maintenance Coordinators and Operations Staff**

Learning Objectives

- ⇒ **Understanding the content of EASA Part-M**
- ⇒ **Gaining confidence in using regulations and guidance material**
- ⇒ **Improving the processes and reaction time within the CAMO**
- ⇒ **Improving overall staff competence and satisfaction**

Content / Course Description

- ⇒ **This maintenance management oriented seminar provides a brief introduction to the EASA regulatory framework**
- ⇒ **It then focuses on the continuing airworthiness management organizations and there mainly on the differences between JAR-OPS1 requirements and the newly established EASA Part-M Subpart G**
- ⇒ **Additionally the training outlines and explains both the required structure of a CAMO as well as the application process for an EASA Part-M Subpart G Organization, including the outline of the content necessary for a Continuing Airworthiness Management Exposition (CAME)**
- ⇒ **The course offers possibilities to discuss problems and issues experienced in the working environment**
